

One Dead, Two Injured in Automobile Smash

School Fair Attracts Large Entry List

Nine Schools Compete; Entries Are Heavy in Vegetable Class; C. R. Holeton, Superintendent of School Fairs, Speaks

A total of 966 entries were listed in the School Fair for Rural Schools held at the Exhibition Grounds, Lacombe, Tuesday, amid cool and showery weather. The fair was fairly well attended and the number of contestants compared favorably with previous years. This year a new step was made for this fair with the inclusion of a "poultry class" for competition; the livestock division was dropped. A total of nine schools, Canyon, Central, Mountain Grove, Eureka Valley, Spruceville, Spring Valley, Lakeside, Arbondale and Sunnycrest, as well as two individual entries from Elkhorn, competed. The School Parade Contest, for which special prizes were given, was held in the open immediately after lunch and prizes were awarded to the following: Arbondale, Eureka Valley, Spruceville, Sunny Crest, Mountain Grove. Eureka won the Cup Special for most points in the sports.

While the judging was being completed the different school groups and visitors assembled in the Central Alberta Pavilion and were addressed by the Superintendent of School Fairs, Mr. G. R. Holeton.

Wants More Entries

He gave a general talk on school fairs and fitting of exhibits. He wanted to see more schools entered in this district and hoped there would be a much larger turnout at their annual meeting. He hoped that next year all of the exhibits, including the roots and vegetables and school booths, would be arranged in the one building, the Pavilion, and personally he would like to see open competition in all classes.

The new inspector, Mr. Thurber, also spoke briefly and said that he had spent several years in this work in other districts and had quite a varied experience. He hoped that all would avail themselves of the opportunity and ask him for any aid.

(Continued On Back Page)

Fast Freight Fools Fans

Cafes and streets emptied as close to the people lined the G.P.R. depot platform Sunday morning in order to witness the stream-line train, now on regular schedule between Calgary and Edmonton, pass through Lacombe.

Several people thought they identified the extra thrill whistle of the new train as it was out of sight around the bend of the tracks coming into the station. At last it bore into view. Good natured joshing followed as a freight pulled up and stopped at the depot.

The stream-line arrived at 8:37.

Grain and Livestock Prices

Board of Trade To Meet October 9

The regular quarterly meeting of the Lacombe and District Board of Trade will be held in the Church Hall on Friday night, Oct. 9, commencing at 8 o'clock sharp. In addition to general business, Lew Hutchinson, Duhamel, Alta., will give an interesting talk, dealing with the Canadian Wheat Board.

It has the reputation of being an interesting speaker and is thoroughly conversant with this subject. Everyone, including ladies, are invited to attend the meeting, while members of the Board of Trade or not.

This Week's Thought
All who joy would win must share it—Happiness was born of a twin.

Thieves Enter Local School

Robbery Committed Some Time On Monday Night; Large Number of Pens and Pencils Taken

Approximately \$150 worth of pens, everharp pencils and plain pencils were stolen from the Lacombe School Monday night when the premises were entered. Entrance was gained through one of two windows left open on the second floor, just alongside the fire escape.

Every room in the school was searched but no money was taken, although there was a small amount of change in different teachers' desks throughout the school. Only school supplies were touched and fountain pens seemed to be the most sought-after article by the thieves.

Local police, who are investigating, believe the work is some malicious activity on the part of boys in their 'teens and have good clues of the culprits, who will be second dealt with when discovered. Further developments are expected shortly.

Church Hall Fund

During the past week the Church Hall Fund has been given a decided impetus with added subscriptions, which is most encouraging to the Church Hall Committee of the Ladies' Guild, who are now hopeful that the required objective will be attained.

The subscription list is still open and further donations will be gratefully acknowledged.

Previously acknowledged	\$68.25

Total	\$79.75

POTATOES! WHAT IS POTATOES

Wowee, what potatoes!

Not to be outdone by the large potato stores carried in the Western Globe last week, still another record is created by O. S. Young, who farms in the Spruceville district, when he brought into the Globe office on Tuesday morning eleven monster specimens of white potatoes, weighing a total of 22 pounds—an average of two pounds each.

One of the potatoes weighed two pounds 11 ounces and four of them weighed just a fraction over nine pounds. Mr. Young is unable to give the name the potato is known by, saying he got the seed from Eastern Canada several years ago.

Any one of them would make a meal for the average family. Seeing is believing, and if any of our readers doubt the authenticity of this story, they can come to the Globe office and see them on display.

Clive

CLIVE—The Clive School Fair, held on Saturday, Sept. 26th, was a decided success. The livestock and poultry exhibits were especially fine. A long list of races was run off by the children in the afternoon on the baseball grounds.

Mrs. Harry Tompkins of Calgary spent the week-end with her husband, Mr. Tompkins, of Clive.

Mr. and Mrs. John Balston and family, formerly of Clive and now of Rimby, visited friends in town last week.

Mr. Jack Wilson has returned to Edmonton to continue his university course there.

Eighteen degrees of frost were registered on the thermometer the night of Sept. 29th.

Threshing in this district is about completed, except for a few fields of late oats.

D. W. Wilson and family visited in Edmonton last week.

Wheat Yield Is Low

The local elevators are moving wheat very slowly this year in comparison with normal years. A small yield, varying from 7 and 8 bushels to the acre to 15 and 20, and rainy weather for the harvesting and threshing season, is responsible for this decrease.

Most of the wheat delivered to Lacombe is No. 1 (garret) and No. 2 Northern, with a little No. 3 Northern trickling in.

With the price of wheat on the upward trend, however, the farmer is at least assured of getting a fair price for his crop.

Our Anniversary

Today marks the first anniversary of the change in ownership of the Western Globe. While the year appears to have passed around very quickly, under certain handlings, we have endeavored to give our readers a weekly newspaper with full of local news and happenings.

That we have been successful in no small degree is evident from the many complimentary remarks heard from time to time from our subscribers and which we so appreciate. It makes us happy to know that the Western Globe is now recognized as one of the best weekly newspapers in Alberta.

Since the change of ownership the Globe has added 153 new subscribers to its list and the total circulation is now over 1000 copies weekly.

To our advertisers we are particularly grateful, as no weekly newspaper worthy of the name could survive without the loyal support of the merchant and business men which we have had. That advertising in the Western Globe does bring results has been proven time without number. All we can say is a very sincere "Thank you."

Tonight the Carnival Opens

Preparations for the Carnival which starts tonight have been going on since dawn. The Carnival will be held in the town square and everything is now in readiness to put over the best Carnival yet held in Lacombe.

Sixteen booths will be in operation, which have all been tastefully decorated with bunting and colored paper, which makes the coloring most effective. The Hokey and Carling Clubs are sponsoring the event and the various committees are to be congratulated on the transformation effected.

Colored lights on the outside of the Carling Bunk also make the public to the entrance. The dance floor, which is 30x40 feet, will cater to those who wish to trip the "light fantastic" to the strains of Bob Paulsen's popular orchestra. The jenny dances are sure to draw big crowds.

A Big Time "Midway" Sixteen booths will be in operation, some of which are entirely new to this locality, and comprise House-House, Blanket, Tapestries and Lamp Booth, Hot Dog Stand, Duck Pond, Race Horse Game, Milk Bottle Booth, Ham Booth, Dark Bingo, Candy Booth, Airplane Game, Cat Booth, Crown and Anchor, Roll Down Game, Three-Ball Game, the Jungle Board and Dart Game.

Books of tickets—12 for \$1.00—creating a saving for the buyer, are now being sold. Each night \$5.00 in cash will be given away to the lucky ticket holder.

The Carnival starts at 8 o'clock each night and will operate Thursday, Friday and Saturday nights. It will be a riot of fun and frolic, so if you are looking for a real good time, don't miss it.

Mr. Gordon Sweet was a weekend visitor in Calgary.

Renewing old acquaintances, H. W. Metcalf, a former old-timer here, has been visiting in Lacombe and district during the past week. He returned to his home in Vancouver, B.C., on Wednesday. Calling at the Globe office, Mr. Metcalf said he appreciated the regular receipt of the Western Globe, which he found very interesting and kept him in touch with local happenings.

The Junior Board of Trade will hold its first meeting of this season Monday night, Oct. 5th, at 8 o'clock in the Town Hall. All members are asked to be present.

Rev. R. B. Layton is expected home early in the week from Ottawa, where he has been attending the General Conference of the United Church.

Lacombe Trains Have New Time Table

With the new stream-lined train now in service between Edmonton and Calgary, the Canadian Pacific Railway has just released a new time-table, which goes into effect immediately. Times of arrival and departure are for Lacombe depot.

Clip it out for your future reference.

The new schedule follows:

Northbound
4:35 A.M. Daily.
12:49 P.M. daily except Sunday.
5:10 P.M. (Chicago), daily except Sunday.

Southbound
2:25 A.M. Daily.
10:03 A.M. (Chicago), daily except Sunday.
12:06 P.M. (Chicago), Sundays only.

2:47 P.M. daily except Sunday.
From the East
9:50 A.M. daily except Sunday.
Going East
1:10 P.M. daily except Sunday.

From the West
6:25 P.M. Mondays, Wednesdays and Fridays.
Going West
7:30 A.M., Tuesdays, Thursdays and Saturdays.

Cattle Buyer From U.S.A. in Lacombe

Claims This District Has Wonderful Cattle and All in Fine Condition

"I think that in and around the Lacombe district you will find one of the best cattle-raising areas on the continent," claimed Kenneth M. McGregor, a buyer for the Hartley Stock Farm, Page, North Dakota, when interviewed at the Adelphi Hotel on Monday afternoon.

This farm specializes in Angus cattle and has one of the largest purebred herds of this breed in America. Accompanying Mr. McGregor on his trip was William Archer of Ross, North Dakota. Both men left town the middle of this week.

Mr. McGregor has bought stock in all different parts of the country and said "I have seen some of the finest Angus cattle in this and the Camrose district that I have ever been my privilege to see." Special mention was made of the herds belonging to George Graham of Bentley, Sam Henderson of Lacombe and S. C. Pritchard of the Camrose district.

Praises Breeding

"The breeding of the cattle by the different stock owners of this district is the most popular line of breeding in the States, and therefore will be the best priced," declared Mr. McGregor.

Before leaving Mr. McGregor bought three carloads of Angus cattle from Sam Henderson, one carload to be shipped to Wisconsin, one to Minnesota and one to North Dakota. A carload was also obtained from S. C. Pritchard of Camrose, to be shipped to Maryland.

Mr. McGregor further stated that this country looked like a garden compared with the northern States and the southern part of the three western Provinces, and declared the people here have a lot to be thankful for.

To Hold Teachers' Convention

The Red Deer Inspectorate Teachers' Convention will be held at the Lacombe School on Thursday and Friday, Oct. 8 and 9. An interesting program has been drawn up and general topics of discussion will be given. Among the outstanding numbers on the program are:

Demonstrations in the Enterprise Work in Division 1 and 2; Social Studies for Division 2 and Grade 9, and Music.

Temperatures

(Lacombe Exp. Station)

Around the Town

The regular meeting of the Women's Institute will be held at the home of Mrs. A. Jenkins next Friday, Oct. 2. The committee in charge consists of Mesdames Howe, Ford, Redig and Newton.

Don't forget the chicken supper to be held at the Lincoln Hall on Friday, Oct. 9th.

Misses Margaret Masters and Mary Sample motored to Edmonton during the past week-end to visit with Miss Loretta Masters.

Mr. McDermid left this week for Listowel, Ont., where he will visit with relatives for six weeks.

Mr. and Mrs. T. H. Wilkinson of Calgary spent last week-end visiting Mrs. Wilkinson's mother, Mrs. N. Rockley.

Miss Eileen Irish returned home Saturday from a week's holiday in Calgary.

Dr. and Mrs. W. T. Hynes and Miss Margaret Masters attended the wedding of the Doctor's cousin, Miss Mary Hynes, in Claresholm last week.

Mrs. H. T. W. Forster of Medicine Hat is the guest of Mr. and Mrs. T. Wilks for a few days.

Mrs. S. G. McCormick from Calgary visited with her daughter, Mrs. J. W. Clark, and Mr. Clark, during the past week-end.

Mr. and Mrs. Don Margach and daughter—Dorothy—from Calgary were the guests of Mr. and Mrs. H. J. Ford last week-end. Mrs. Margach is Mrs. Ford's sister.

Group Three of the United Church will meet at the home of Mrs. M. J. Ford last Thursday, Oct. 8th, at the usual hour.

Accident Proves Fatal To Orville C. Barber

Coupe Driven by Deceased Collides With Truck Driven by Harold Landon at Intersection of Barnett Ave. and Calgary Highway

Injuries sustained in a collision when the car he was driving hit a truck at the intersection of Barnett Avenue and the Calgary-Edmonton highway about 9:00 o'clock Monday morning, proved fatal to Orville C. Barber, car salesman, of Innisfail, who died in Lacombe Hospital a few hours after the accident. He never regained consciousness. Harold Landon, said to be the driver of the truck, and Max Prizell, riding in the truck with him, both of Lacombe, were admitted to the hospital, but after receiving attention, went to their homes Monday afternoon. Mr. Landon received a severe shaking up, but outside of a few bruises and nervous shock, did not suffer serious injury. Not so fortunate, Max Prizell received a bad gash in the head, requiring several stitches, was badly bruised and suffered from nervous shock.

An urgent call for the ambulance was sent in, and driven by Art Lidskog, it conveyed the injured men to the hospital.

Apparently unheeding a stop sign on the corner, the Oldsmobile, a 1935 coupe, driven by Mr. Barber, was proceeding south on the old Calgary and Edmonton trail, and at the Barnett Avenue intersection, collided with the truck. The automobile was thrown across the road against a tree, while the truck swerved into the ditch.

It appeared as though Barber's skull had been crushed between the car and the tree, his head being torn out of the window when he was removed from the car.

Both Vehicles Damaged

Both car and truck were badly damaged. The car was smashed on both sides, presumably first by the truck, and then by the tree. The truck was backed in along the radiator and fenders.

Corporal R. F. Matheson of the R.C.M.P., together with local police, investigated the accident.

A coroner's inquest was held at 8:00 o'clock Monday afternoon, with Dr. H. Nis of Red Deer in charge. Jurors empaneled were: Lloyd Hopson, Len Matheson, R. M. Pearson, Gordon Sway, Henry Sway and David Hay, Foreman. After the jurors had viewed the body, the inquest was adjourned until Monday, Oct. 6, at 2 o'clock.

Was Former Resident

Orville C. Barber, 32 years of age, was well known in this district and a short time ago was manager of the Ole Bode & Son branch here. He had joined the staff of Parks Motors and intended to start work with that firm the day he was killed.

Born at Owen Sound, Mr. Barber came west in 1911 and has resided chiefly in Alberta ever since. In 1929 he married Gertrude Strachota at Killam and his wife and two little boys survive. Raymond, aged four, and Douglas, three, for whom much sympathy is felt. At present they are staying with friends at Red Deer. Other survivors are his mother, Mrs. P. J. Barber, Gravenhurst, Ont.; four brothers, Lyle, of Calgary; Morley, of Gall, Ont.; Carl, of Owen Sound, and Jay, of Vancouver, and two sisters, Mrs. Clare St. John, of Gravenhurst, and Mrs. Gunning of California.

Funeral arrangements are in the hands of Foster & Foster of Calgary and the funeral will be held in that city today (Thursday).

Do You Remember—'Way Back When?

(From the Minutes of the Town Council)

30 YEARS AGO—OCTOBER, 1906
A letter was sent to the School Board asking them to vacate the office being used as a school room in the Town Hall as soon as possible. This room is to be placed at the disposal of the Fire Brigade.

The constable was instructed to engage a man for a week to assist in rounding up foot-clothes, roaming at large within the town limits and impound same. The pound already is filled with 25 head of cattle.

One hundred and fifty dollars was voted by the Council to be turned over to the Fire Brigade, such sum to be used as the recipients saw fit.

25 YEARS AGO—OCTOBER, 1911
A by-law for the purpose of building a grandstand on the corner of Barnett Avenue, Dalmage and Railway Streets around the block occupied by the Adelphi Hotel was passed.

A notice of motion to raise \$45,000 by issuance of debentures, such sum to be expended on the building of waterworks within the town, was read.

30 YEARS AGO—1901
The town declared its willingness to pay 50 per cent of the cost of opening Nanton Street to the intersection of the Calgary-Edmonton Trail. The Municipality of Crown No. 399 is to pay the other 50 per cent.

Price Of Wheat For 30 Years Tabulated Here

Figures Represent "Season Average" Quotations at Lake Head

With wheat prices closing at 1.07½ on September 30th, and the setting of the "peas" at the same figure as last year—57½¢ a bushel lake head basis—marketing conditions in this country are unsettled at present.

How the 1936 return compares with previous years may be seen from the table appended below which shows the "season average" prices at Fort William for the past thirty years:

1935	87.5
1934	68.1
1933	54.3
1932	59.8
1931	64.3
1930	1.24
1929	1.24
1928	1.40.3
1927	1.46.3
1926	1.51.3
1925	1.69
1924	1.07.1
1923	1.10.5
1922	1.29.7
1921	1.99.3
1920	2.17.5
1919	2.24.1
1918	2.21
1917	2.05.6
1916	1.13.3
1915	1.32.3
1914	89.4
1913	89.4
1912	1.00.8
1911	96.6
1910	1.02.4
1909	1.16.1
1908	1.04.7
1907	79.5
1906	77.5

CUCUMBERS FOR WINTER

Cucumbers for salads in winter may be prepared in the following manner: Wash, peel and slice the cucumbers; pack in crock in layers, beginning with a layer of salt, then a layer of sliced cucumbers, until the crock is filled; finish with a layer of salt, and put a plate on top with a weight on top of that. Soak in water over-night before using, changing the water several times.

In making home-made jams, jellies or pickles, one important legal point must be kept in mind. If the jams, jellies or pickles are to be sold outside the province in which they were made, a permit is required from the Fruit Branch of the Dominion Department of Agriculture, Ottawa. The recipes in the pamphlet cover 22 pages and it may be obtained free on application to the Publicity and Extension Branch.

When in Town Eat at STAR CAFE

A One Man Farm Machine

Joe Finnegan, a Washington state farmer, has invented a three-in-one farm machine which has shortened his working hours considerably. He carries seeds on his hips. A hose runs down each leg. Every time he takes a step, the motion plants some seeds. Before him he pushes a cultivator which prepares the soil, and behind him drags a land leveller which completes the operation.

The Churches

CHURCH OF ENGLAND IN CANADA

Diocese of Calgary

St. Cyprian's Church, Lacombe

Incumbent: The Rev. W. R. Herbert

Licensed Lay Readers: E. H. Jones, K. C. and A. T. Jackson

Organist: Miss Alice Inskip

Oct. 4th—17th Sunday After Trinity.

8:00 a.m.—Holy Communion.

10:00 a.m.—Sunday School.

11:00 a.m.—Matins.

7:30 p.m.—Evensong.

Friday evening—Choir practice at 8:30 o'clock.

St. John's, C.I.V.E.—Instruction Classes, 10:30 a.m.; Holy Communion, 11:00 a.m.

ST. ANDREW'S UNITED CHURCH

Rev. R. B. Layton, B.D., Minister

Services at 11:00 a.m. and 7:30 p.m.

Sunday School at 11:00 a.m.

Next Sunday the services will be taken by Rev. J. A. Berry, B.A. of Edmonton.

There will be services in the Blackfield United Church at 5 p.m.

Mr. Layton has been asked to announce that there will be a broadcast over C.F.A. every Tuesday evening from 9:30 to 10 o'clock, entitled "The Voice of the Church."

Those interested in church matters are invited to listen in.

CHRISTIAN SCIENCE

At all Christian Science churches next Sunday, the subject of the Lesson-Sermon will be "Unreality." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God" (1 Corinthians 2:12). One of the correlative passages from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, is as follows (page 353): "The Christianly scientific real is the sensuous unreal. Sin, disease, whatever seems real to material sense, is unreal in divine Science. The physical senses and Science have ever been antagonistic and they will continue so, till the testimony of the physical senses yields entirely to Christian Science."

At all Christian Science churches next Sunday, the subject of the Lesson-Sermon will be "Unreality." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God" (1 Corinthians 2:12). One of the correlative passages from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, is as follows (page 353): "The Christianly scientific real is the sensuous unreal. Sin, disease, whatever seems real to material sense, is unreal in divine Science. The physical senses and Science have ever been antagonistic and they will continue so, till the testimony of the physical senses yields entirely to Christian Science."

Meadowbrook

MEADOWBROOK—We are glad to see Mrs. Wedlund is able to be around again after her illness.

Mr. Ellis Riley has purchased a tractor.

Mr. and Mrs. J. Cooper are taking up residence in this vicinity. We wish them every success.

Threshing is partly done here and but for spasmodic wet days would soon be completely finished.

Miss Annie Kinley from Hedley, B.C. is spending a few days with her brother.

Mr. and Mrs. H. Schaff, Miss Lucille Manville of Millet, Mr. and Mrs. E. Gilhand and Mr. and Mrs. Helmer Riley were guests at the home of Mr. and Mrs. W. J. Riley on Sunday last. The event was Mr. Riley's birthday and a sumptuous dinner was served and enjoyed by all. The host received congratulations on attaining another milestone in life.

Building New Houses

Mr. M. Koleyak and Mr. DeBouve are erecting new houses. It is a sign that times are getting better when building begins again.

We are very sorry to learn of the death of Mrs. J. Heath of Camrose, who was one of the pioneers of the Meadowbrook district. Much sympathy is expressed in the locality to the bereaved family.

All roads lead to Thursday evening. Oct. 8th. Chicken supper and all the other good things that go with it will be served from 6:30 until 9:30. The choir from Ponoka are putting on the program, which assures all the treat of the season. Anyone hearing them last year will surely want to hear them again, so come and bring all your friends. Everyone is welcome.

KEEPING THE SAND MAN AWAY

"Mother, (halting her halcyon): 'Willie, won't you go to sleep?'"

"Willie: 'But mother, your singing keeps me awake.'"

The newest modernistic range on the market is handled by the Lacombe Furniture Store. Of course it is a Clare Bros. Range—Advt.

To Build Sister Ship—Queen Mary

LONDON.—Liner "Queen Mary's" sister ship, to be built in the same yard on the Clyde, is scheduled to make her maiden crossing of the Atlantic in the early Summer of 1940.

This announcement was made here by John Brown & Co., Ltd., builders of the "Queen Mary" and winners of the contract for the second giant liner planned by the Cunard White Star Line.

Now that the Government has announced agreement to make an advance under the North Atlantic Shipping Act toward the cost of the vessel, building will start as soon as possible, probably early in September.

No. 552 in the yard books, the new liner will, it is stated, be slightly larger and faster than the Queen Mary. The vessel will not be an exact replica of her sister ship, but will incorporate new features of design, both in outward appearance and in machinery. A figure of from \$3,000 to \$3,500 tons is mentioned as the probable size of the ship.

No Easy Task

Looking at the gigantic mass of publicity that heralded the maiden voyage of the Queen Mary, the builders realize that the new vessel will have no easy task to rise fully to the public's expectations. There is in Britain already a certain feeling of disappointment in the present liner's early voyages.

But Clydebank is sure that both sister ships will live up to their reputations. It is stressed that the fact that the "Queen Mary" was designed nearly eight years ago must not be forgotten. Since that time new advances have been made in ship design and in marine engineering which will enable, engineers claim, No. 552 to be both speedier and more economical than No. 534.

Economy is one of the factors in the Queen Mary, that have most pleased her owners, the Cunard White Star line, it is declared. Her fueling appears to be proportionately cheaper than that of other liners, such as the Aquitania.

The Cunard company has for some years declared its intention of building two large vessels to operate its Atlantic service.

Need Two Fast Vessels

The view of the Cunard line is that an express service between Britain and America can best be maintained by two vessels of similar size and speed, and Sir Percy Bates, chairman of the company, has declared that the Queen Mary and her sister ship will be the smallest and slowest liners that could fulfill all the economic conditions demanded by such a service.

The Cunard Steamship Company originally obtained tenders for the building of the new liner from four firms. But the size and structure of the vessel is so exceptional that it was eventually decided to give the contract to the firm which built the Queen Mary.

In John Brown's yard the slipway and crane equipment is ready for use in the building of the second ship. It is also stated that as much as £200,000 will be saved by the availability of patterns and designs used on the Queen Mary.

No. 552 will be ready for launching in 1938.

Prolific House Fly Carrier of Disease

House flies are prolific breeders, and, during the summer and early autumn, appear in great numbers wherever the materials in which they breed—manure and garbage—are allowed to accumulate without proper treatment.

The species *Musca domestica* L. is a house fly par excellence, and constitutes over 90 per cent of the flies found in houses in temperate climates. The problem of the house fly is a serious one, owing to its relation to disease, states C. R. Twinn, Entomological Branch, Department of Agriculture. The flies serve in the contaminative spread of disease, and as alternate hosts or carriers of disease organisms. Among important diseases shown to be transmitted through contamination of food by flies are typhoid, tuberculosis, summer diarrhoea, cholera, and bacterial and amoebic dysentery. Flies also feed on mucus, blood and serum from wounds, exudations from sores and ulcers, and are thus able to transmit diseases of various kinds from infected lesions to the mucous membranes, or broken skin, or healthy individuals; anthrax, trichoma, purulent ophthalmia and yaws have been proved to be carried in this way.

Flies Among Animals

Undoubtedly, many diseases are carried by flies among animals, as well as human beings. It is known that flies are the carriers of certain species of roundworms that produce tumours in the stomachs of horses, and of tapeworms which infest poultry.

In considering control measures against the house fly (and incidentally the biting stable fly and blow flies), the disposal or treatment of their breeding places should be given first place, as several hundreds of thousands of flies may emerge from a single ton of manure or garbage. Garbage should preferably be disposed of by burning. Manure should be removed daily and spread on the fields, where the drying action of sun and wind will prevent breeding. If this is not practical, it should be piled in compact heaps with straight-cut sides to promote high temperatures destructive to the larvae.

Are You Acquainted with the fact that LAIRD MOTORS

Operates One of the Most Up-to-Date Garages in Alberta

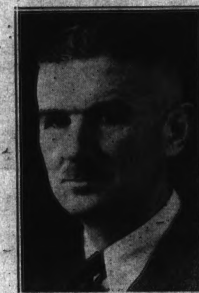

AND CAN SERVICE YOU WITH THE LAST WORD IN MODERN EQUIPMENT. OUR EFFICIENT MECHANICS ARE EXPERIENCED AND TRAINED IN THEIR RESPECTIVE DEPARTMENTS

WE HAVE
BUILT OUR
REPUTATION
ON PROMPT
AND
COURTEOUS
SERVICE

THE LARGEST
GARAGE IN
ALBERTA
BETWEEN
CALGARY AND
EDMONTON.
OPEN DAY
AND NIGHT

Here Is the Staff You Meet and the Service They Render

Ted George

Who joined our staff nearly two years ago, has full charge of the Sales and Collection Departments. He reads no introduction to the district, having operated a successful garage business for the previous 10 years in his father's shop. He is capable and understands local conditions.

Norman McIntosh

Well known in this district, joined our organization six months ago and has made many friends by his fair methods when trading in Used Cars.

Pat Dwan

Another efficient mechanic, has been in our employ over four years. Pat is a local boy and has received first-class training throughout.

OUR LUBRICATION DEPARTMENT is the finest of its kind, with a recently purchased Alente Electric Pressure Gun, capable of greasing the toughest joint on your car with the proper genuine Alente Lubricant. Your car is raised five feet on a powerful hydraulic hoist so that experienced men can easily do a thorough job. There are seven different lubricants for your car, such as Special Front Wheel Bearing Grease, Special Universal Joint Grease, Special Water Pump Grease, etc. It means many miles to your car—many dollars saved—by having it greased with proper lubricants. We do this job right!

WELDING—No welding job is too difficult for us, as we have the most up-to-date High Power Electric Welder obtainable. It is portable and can be taken anywhere. We also have complete Acetylene Welding Equipment and Cutting Torches.

OUR SPACIOUS BUILDING eliminates the danger of damaging your car by over-crowding while in for Service or Storage. You will find here Warm, Neat and Clean Ladies' and Gents' Rest Rooms.

TIRES, ACCESSORIES, ETC.—We carry one of the largest stocks of New and Used Tires, also a most complete line of Parts and Accessories for All Makes of Cars.

Since we have completely departmentalized our business, with a man in charge of every department, better Service is available—and more economically than you can secure elsewhere. If you have not been dealing with us in the past, we would greatly appreciate your patronage. Satisfied customers are our biggest asset. Realizing this, it is our utmost desire to be fair and honest in all our dealings. If you are not dealing with us we are both losing. The manner in which we have Reconditioned Used Cars has made us many friends and customers.

Our payroll is the largest in Lacombe and the business is entirely owned and operated by Hal D. Laird. Every one of us solicits your patronage—and remember—you keep your money in Lacombe when you deal with us.

TO CELEBRATE OUR 10th ANNIVERSARY WE ARE CLEARING OUT OUR USED RECONDITIONED CARS AND TRUCKS AT RIDICULOUSLY LOW PRICES. IT WILL PAY YOU TO INVESTIGATE!

LAIRD MOTORS

LACOMBE, ALBERTA

Where You Get "Happy, Snappy Service"

"Van" Van Wassenhove

Who needs no introduction, is in charge of Service. He has been with us for nearly 10 years and came with several years' experience as Service Manager in Edmonton. Our Service speaks for his capable management of this department.

Andrew Bell

Has charge of the North Star Oil Warehouse, which we operate, and can supply your demands for Gas, Kerosene, Distillate, Quaker State, William Penn and Star Oils, wholesale or retail.

Ed Edgar

Has charge of our Weaver Steering, Axle and Wheel Aligning Equipment, which was recently installed at a cost of \$800. He has been in our employ for the past six months and came to us with 12 years' experience. We can positively guarantee to correct Steering Troubles of any kind. This is the only equipment of its kind outside of Edmonton and Calgary.

Harvey Cameron

Another local boy, who has been with us for the past six years, has charge of our Glass Cutting Department and all Upholstery Repair Work. We carry at all times a complete stock of the finest Plate and Gent Glass and can supply your demands while you wait.

Ted Brink

Has charge of our Body Repair and Duo Painting and Refinishing Department. He has been on the staff for over a year and came to us with 10 years' experience in this kind of work. He is unquestionably one of the most capable men in this line available. If it's a wreck—and can be repaired in Alberta—we can do it and make it look like new.

Art Lindskog

Who has been with us over nine years, is thoroughly familiar with every branch of the business and at present is in charge of the Bookkeeping Department.

Lorne Lewis

A very capable mechanic, has been in our employ for over six years. His work during that time speaks for itself.

Gus Utas

Who has had charge of our Shop for the past six months, is a very capable foreman and is one of the few men in Alberta holding a membership in the Society of Automotive Engineers. He has had over 20 years' experience in this line of work, so your car could not be in more capable hands. \$7000 worth of equipment is in his department and under his care, which we can prove turns out better work and will save you money.

Frank Adamson

Who is in charge of all Buying for the firm, was in our employ for about four years at the Market First, Edmonton, doing the same work, before taking over this department about six months ago. He also looks after all Work Orders and Pricing.

"Tommy" Myles, "Billy" McKenzie and Harold Orum

Attend to the Front End Service, being right "on the job" at all times.

Bill Jackson

Who has been with us about four years, looks after the night job, and is always on hand to help you out in the late hours.

Training Wives Of Unemployed

BIRMINGHAM, Eng.—The Beeches Educational Center at Bourneville, the only residential center in the country for training unemployed women and the wives of unemployed men in club activities, has been so successful in the two years of its existence that it has been necessary to enlarge the building.

Miss Margaret Bondfield, prominent social worker, spoke at the opening of the new wing. Women who were the wives of unemployed men had a double task, she said, for they had not only to keep up their own courage, but to strengthen the backbone of their men.

Miss Sylvia Pearson, warden of the Beeches, said that the center was trying to help people make the best of whatever material they had, and to choose things for daily life and daily use which were lovely in color and design. The constant effort also was to help students to get a sense of values by giving them some insight into economics and citizenship, and by introducing them to the treasures of literature.

Many Students

Between January, 1935, and March, 1936, students numbering 444, representing 79 towns in England, Scotland and Wales, had been to the Beeches. Of these 197 women had come from clubs in the depressed areas.

A typical day's program included craft classes in the morning, country dancing, games, walks or visits to places of interest in the afternoon; a lecture in the evening; singing, dramatic work, or other party or recreational and socially educational activity after supper.

It is hoped that the introduction to wider interests which the students receive will make them more efficient when they return to their own homes, and will enable them to build up the club programs there.

Fall Seeding of Crested Wheat Grass

Although early spring seeding of crested wheat grass on clean land in the Prairie Provinces usually gives the best results, numerous tests have demonstrated that a stand may be established satisfactorily by seeding in the Fall of the year.

In the booklet entitled "Growing Crested Wheat Grass for Seed Production," issued by the Dominion Department of Agriculture, T. M. Stevenson and W. J. White of the Dominion Forestry and Crop Laboratory at Saskatoon, state that Fall seedings have the advantage of being less likely to be injured by soil drifting and insect pests. In addition, the grass makes sufficient growth to permit early cultivation to control weeds in the following Spring.

Seedings made in early September or well-prepared soil and have been most successful, and Fall seedings made over a period of years have never shown any tendency towards winter killing.

Produce Fair Crop

Standards of crested wheat grass established through Fall seedings normally produce a fair seed crop the following year, but yields of seed are always somewhat smaller than those from Spring seedings made in the same year. One important point, whether in Spring or Fall seeding, is shallow seeding. The seed should not be covered by more than one-half inch of soil and seeding to this depth is possible only if the seed-bed is firm. Packing the land before seeding is one of the best means of avoiding over-seeding and the consequent poor stands.

The booklet, which is issued free on request by the Publicity and Extension Branch, Dominion Department of Agriculture, Ottawa, contains information gained from actual experience over a number of years under a wide range of soil and climatic conditions. Soil preparation, time, method, and depth of seeding, care and cultivation during the first year, when and how to harvest, curing and handling, and seedling and cleaning the seed, are the main subjects dealt with in detail.

Course To Be Presented by L.W.I.

"Easily Prepared Supper Dishes" will be the text of a short course to be presented under the auspices of the Lacombe Women's Institute at the Church Hall, Oct. 9. The demonstrator will be Miss MacIntyre of the Olds School of Agriculture. Tea will be served during the afternoon.

A silver collection will be taken to help defray expenses.

I.O.E. Honors Mrs. W. N. McDermid

Honoring Mrs. W. N. McDermid, 10 members of the I.O.E. gave a surprise party at Mrs. McDermid's home Monday night. During the evening a small play was presented to Mrs. McDermid, who leaves shortly for an extended visit to her old home in Listowel, Ontario. There she will visit with her daughter Doll, who is well known in these parts.

We must adapt ourselves to our situation, complain of it as little as possible, and take advantage of all the benefits it can offer.—Seneca.

Bentley

BENTLEY—Mrs. Dawson of Edmonton is the guest of her brother, H. A. Wilkie, and Mrs. Wilkie. Mrs. Wilfred Thorpe was an Edmonton visitor the first of last week. Mr. and Mrs. Gunn, Sr., have gone to Calgary and will spend the winter with their daughter there.

Mrs. Russell Gervais was hostess to the W.M.S. on Thursday afternoon, when plans were made for the coming months. The hostess then served a delightful lunch.

Surprise Party Given
Miss Julia Solberg of St. James district left last week for Edmonton,

where she will enter the University Training School for Nurses. Prior to her departure the ladies of the community held a surprise at her home in her honor and presented her with gifts and good wishes for her success.

Jack Roberts, who has been here from Calgary for some time past with his sister, Mrs. W. S. Withers, returned home last week.

Miss Bailey of Calgary, who has been at the Evernden home for the past month, returned home last week.

Dr. Henry has moved into his new office. It has a very neat appearance and is a decided improvement to Main Street.

Mr. and Mrs. Jake Leiske of Bel-

ker and Miss Rockman of Saskatchewan were visiting friends and relatives here on Friday last.

Leaves for Camrose
Miss Judith Roe of Stephenson district left on Sunday to enter the Camrose Lutheran College, where she will take Grade 11 and music. On Tuesday afternoon last the ladies of the community met at her home for a farewell in her honor and to wish her success. During the afternoon they presented her with a toilet set as a remembrance.

Mr. Roy Gervais left last week for Prince Rupert.

Engagement Announced
About 40 people were present at the Huddridge-Leiske home on Saturday evening when their daughter, Miss Eldena, was guest of honor at a party announcing her engagement to Mr. John Wentz. These young people are popular with the young folks of the Gull Lake district, who will wish them much happiness. The wedding will take place on Oct. 7. Ross Cutler, 12-year-old son of Mr. and Mrs. L. S. Cutler, Rimbey, was brought to the Bentley Hospital on Monday evening, suffering from the effects of running a sharp stick into his right eye while working on some ski equipment which he expected to use during the coming winter. Dr. Henry dressed the wound and he was immediately taken to Edmonton University Hospital, for treatment.

Quips and Quirks

"Did Johnnie take his medicine like a man?"
"Wife," replied he, "he made a terrible fuss—you would have thought he was being poisoned."

Some gulls were following a steamer, and an Irishman said to his companion, "Sure, an' they're a nice flock of pigeons."
"They're not pigeons," said his companion, "they're gulls."
"Well," said the Irishman, "gulls or boys, they're a nice flock of pigeons."

SERVING THE VENISON
"James, you may serve the venison."
"O.K. I'll pass the buck."

We hand the wrought-iron gardenia this week to the new bus boy in a Boston restaurant. The boss handed him a \$10 bill and told him to "go get some silver."

The bus boy came back in 15 minutes with \$10 worth of knives, forks and spoons from a nearby "five and ten."

"I liked one thing about the old days."

"What was that?"
"Big spenders took money out of their own pockets instead of the Treasury."

"I've never seen a more egotistical girl than that contortionist. She's certainly pleased with herself."

"You'd be, too, if you could put yourself on the back."

Displaying her well-filled pantry in a demonstration this week for club members, Mrs. W. revealed that she has canned a total of five persons for a year's time—Hurlington (Texas) paper.

That's enough to jar anybody.

Mother's Day—that day when sons and daughters gather to honor her in so joyful and touching a reunion that it takes her a week to clean up the dishes.

Two colored troopers were lining

We are expecting several new Patterns in Studio Lounges and Davenport with Chairs to match this week and at very special prices at Lacombe Furniture Store—Advt.

CANADA-U.S. PEACE AGAIN CONSOLIDATED

Symbolizing more than 120 years of peace and friendship between United States and Canada, a bronze plaque was erected at the intersection of the international boundary line on Roosevelt International bridge at Cornwall, Ontario, by the Kiwanis club of Ottawa, Ontario, and Washington, D.C. Harry Anscombe, president of the Ottawa club, C.E.S., and Edwin F. Hill, past international trustee of Kiwanis International and former governor of the Washington capital district, unveiled the tablet in the presence of more than 150 Kiwanians from Ottawa, Montreal, Kingston, Cornwall, in Canada, and Malone, Cazenovia and Watertown, in United States. The inscription reads: "This unfortified boundary line between the Dominion of Canada and the United States of America should notaken the remembrance of a lesson of peace to all nations."

—Central Press-Canada Photo

up for chow outside the mess hall. "Say," declared one, "if you don't get someplace behind me, I'm going to knock you out of house 'n' home!"

"Ses you! How y'll figure to do that, when I ain't got no home?"

"Brother, I'll dig you one!"

PRESERVED VEGETABLES

One advantage of the method of preserving vegetables by fermentation and salting is that containers, such as old kegs, butter tubs or stone crocks may be used. Wooden kegs or tubs to be used for pickling should be washed with boiling water and washing soda, allowing one handful of soda per gallon of boiling water. After thorough scrubbing, the kegs should be rinsed with hot water and several lots of "cold water."

In the pamphlet on "Jams, Jellies and Pickles," issued by the Dominion Department of Agriculture, full information is given about the making of these comestibles, together with instructions for the preserving of vegetables by salting without preservation, by fermentation with dry salting, by fermentation in brine, by the sauerkraut method, and by numerous recipes for relishes and pickles.

The Palace of Sargon at Khorsabad, Assyria, built in 700 B.C., covered 18 acres. There are more than 80 glaciers in Glacier National Park. Some of them cover an area of more than five square miles.

Tennessee obtained its name from the river that runs through the state. The Indian name for the river means "Crooked River."

Customer (suspiciously): "How is the hash made here?"
Waiter: "Made, sir? Ash ain't made; it accumulates."

Our acts, admired when others speak of them, are scorned as soon as we speak of them ourselves.—Pliny the Younger.

When in need of a Dinner Set, crockery and table linens, we are getting in Canadian-made Dinner and Oven Ware and it is worth seeing, at Lacombe Furniture Store.—Advt.

Rimbey Pioneer Resident Feted

RIMBEY—Mrs. S. J. N. Byers was feted in farewell last Thursday evening, when nearly half a hundred ladies gathered at the home of her daughter, Mrs. Lloyd Newsome, to bid adieu to one of Rimbey's most estimable pioneer residents. The party was planned as a surprise and Mrs. Byers was taken completely unawares. During the evening the guest of honor was presented with a handsome leather purse, and on behalf of those present Mrs. Ed Johnston pleasantly read a message of remembrance and farewell to Mrs. Byers, who will shortly go to

Ponoka, where she and Dr. Byers will reside in future. Mrs. Byers came to Rimbey from Nebraska in 1913. Her kindly, quiet manner has always endeared her to all who knew her. In responding to the presentation, Mrs. Byers quoted very appropriately from a poem on "Friendship," by Edgar Guest.

"Real social security is in self-reliance and neighborliness."—Henry Ford.

To be happy, a man must be like a well-broken, willing horse, ready for anything. Events will go as God likes.—General Gordon.

Sport-Scope

By JACK McCAUGHERY

For the first time in 15 years, the world series is to be a nickel event. On one side the American League champions, New York Yankees, and on the other side the National top-slot Giants. And didn't things give the experts a headache? The 1936 campaign, which ended Sunday, brought two unexpected pennant victors to the top; the Yankees displayed by far the most powerful club in the American half, while the Giants upset the dope in the last three weeks of play in the National. Yessir, strange things can happen.

But don't think that those were the only unexpected events. What about the collapse of the gold-plated Boston Red Sox and the fall of the champion Detroit and Chicago teams? What about the astonishing rise of the supposedly weak White Sox, Senators and Reds? And what about the Nationals winning for the first time in the all-star game? Weren't they all upsets?

I would put my money on the Yankees for the pennant—in four out of six games. Even though the American leaguers are a youthful team and lack experience to the Giants, they have the batting punch. If the "murderers" row can click as they have been doing during the year, the Giant pitchers will no doubt have their hardest games of the year. The hitting of these six slugging Yankees will overpower the superior hurling staff of their rivals.

Here are the final standings for 1936, with the position in which each team finished the 1935 season at the end of each line.

NATIONAL LEAGUE

Rimbe

RIMBEY.—Mr. and Mrs. S. J. Burke of Rimbe have had as their guests during the past week Mr. Burke's sister, Mrs. W. Roche of New York City, and Mrs. G. Burke of Edmonton. Mrs. S. J. Burke and her guests motored to Banff on Sunday and spent the fore part of the week holidaying at that resort. Mrs. Roche continuing from there to her home in the United States.

Mrs. (Dr.) J. N. C. Byers entertained at six tables of bridge recently in honor of Mrs. S. J. N. Byers, who will go to Ponoka on Saturday to join her husband, Dr. Byers, Sr., a practicing physician at that place. Dr. and Mrs. Byers have been residents of Rimbe for 22 years and it is with sincere regret that their many friends have learned of their attendance of residence.

Twenty-five ladies of Rimbe held last Wednesday evening at the home of Mrs. C. J. Hewitt of Rimbe in honor of Mrs. C. E. Saunders, a recent bride. Mrs. Saunders motored over from her home in Eckville to attend the shower and was the recipient of many beautiful and useful gifts, among which was a handsome breakfast suite.

HIS BUSINESS
"Believe me," said the comedian, "when I do my stuff on the stage they roar."
"How wonderful!" cooed the pretty young thing. "Are you a lion-tamer?"

Crop Report

Just Released

Following will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its branches. The branch managers have complete and intimate knowledge of each local situation and are in touch with crop conditions in all sections of the country. The report has just been released.

GENERAL
Threshing throughout the Prairie Provinces is now practically completed except in the northern districts of Alberta. The grades generally are high and quality good. The preliminary estimate of the Dominion Bureau of Statistics places the wheat yield of the Prairie Provinces at 216,000,000 bushels, which compares with an actual yield last year of 229,500,000 bushels.

In Quebec crops generally are good and harvesting is proceeding under satisfactory conditions. In Ontario showers have been beneficial to pastures, root and fodder crops and late fruit.

In the Maritime Provinces, while unfavorable weather has delayed harvesting, conditions generally continue satisfactory. In British Columbia, gold hay and grain crops have been harvested safely and, with the exception of tomatoes and hops, which are below average, the late crops are progressing satisfactorily. Details follow:

PRAIRIE PROVINCES
Alberta.—Threshing is nearing completion except in the northern districts, where rains have delayed operations. Wheat yields vary from poor to fairly good, with grades generally high. Coarse grains on the whole will be light. Range pastures have been improved by recent rains. Sugar beet crops promise a normal yield.

Saskatchewan.—Threshing operations are almost completed. While the wheat crop will be lighter than in 1935, the high grade and quality of the grain partially offsets the lower production. Oats and barley yields are considerably below those of last year and percentage of crop is reported in a number of districts.

Manitoba.—Only a very small proportion of the grain remains unthreshed. The wheat out-turn is estimated to be larger than that of last year, and is predominantly of high grade. Heavy rains have fallen over most sections and fall cultivation is now well under way.

"Have you ever appeared as a witness before?"
"Yes, your worship."
"In which suit?"
"My blue serge."
She: "My father gives me a dollar every birthday."
"How many have you got now?"
"Seventeen dollars."
"How much does he still owe you?"

A young man applied for a job and was granted an interview. After the usual preliminaries, the manager said: "Have you any ambition?"
"Ambition," replied the young man. "I shall never rest until I see you out of that chair."

FASHIONS

It is seldom that one book contains as many good qualities as the above and it must be given a place among the best fiction in Lacombe's Public Library.

The writer takes us through 15 years of life in the Mark family, most of whom are hard working farm folk who toil from morn till night on different parts of "Mark section," the old homestead, in Michigan.

Here is a book without any specified hero—it takes us to Detroit to study art with young Jack Mark, a likeable cripple; to France with "Baw" Mark, whose wanderings bring the family many a headache; then back we go to "Mark section" to till the soil with those who have chosen to stand by old Captain John, whose guiding hand has steered the family over many a shoal.

The reader goes into the automobile business in Detroit and Pontiac with Clayton Gale (his mother was a Mark); sees the industry carry him to the top in a few short years and the bank crash in Michigan clean him out in as many days; leaving only optimism to carry him on.

It is a book of good times and bad, of sudden wealth and sudden poverty, and you are bound to admire the courage of old Captain Mark as he guides the family in their days of trouble.

I can only recommend this book—it is a credit to Arthur Pound and those who have not read it have a treat in store.

The World of Fact and Fiction

By ART

"SECOND GROWTH"

By Arthur Pound

It is seldom that one book contains as many good qualities as the above and it must be given a place among the best fiction in Lacombe's Public Library.

The writer takes us through 15 years of life in the Mark family, most of whom are hard working farm folk who toil from morn till night on different parts of "Mark section," the old homestead, in Michigan.

Here is a book without any specified hero—it takes us to Detroit to study art with young Jack Mark, a likeable cripple; to France with "Baw" Mark, whose wanderings bring the family many a headache; then back we go to "Mark section" to till the soil with those who have chosen to stand by old Captain John, whose guiding hand has steered the family over many a shoal.

The reader goes into the automobile business in Detroit and Pontiac with Clayton Gale (his mother was a Mark); sees the industry carry him to the top in a few short years and the bank crash in Michigan clean him out in as many days; leaving only optimism to carry him on.

It is a book of good times and bad, of sudden wealth and sudden poverty, and you are bound to admire the courage of old Captain Mark as he guides the family in their days of trouble.

I can only recommend this book—it is a credit to Arthur Pound and those who have not read it have a treat in store.

The housing shortage reported from Edmonton and other cities this year is forcing many families into abodes from which they would shrink if they could pick and choose. Some years ago I saw a strange "rooming house" which probably came into existence through a similar shortage of houses.

mightily river rolling slowly on its way to the sea,
At night the roomers could lay in their cabins and dream that the old boat was rounding Cape Horn or gliding past the Pallaron Islands into San Francisco Bay. What could be sweeter?

Not Our Idea Of Fun, Either

JOHANNESBURG, South Africa.—One of the lions in the Kruger National Park is becoming well known to tourists in the Pretoriuskop district on account of a playful habit of running after cars like a dog after a boy on a bicycle.

The lion lies in wait on the road. On the approach of a car he jumps up, runs alongside for some 30 or 40 yards, biting at the tires and growling, and seems to thoroughly enjoy the fun. Apparently he is quite harmless and considers this a new form of sport, though some of the occupants of cars don't always appreciate the fun the first time.

A new all-metal, low-wing mono- plane in the world, is shown in practice flight at Southampton in preparation for the R.A.F. display at Hendon

Three Great Stars At Avalon Theatre

Clark Gable, Myrna Loy and Jean
Harlow Are Featured

The "perfect triangle" has been found at last. It is made up of Clark Gable, the husband; Myrna Loy, the wife; and Jean Harlow, the "other woman."

Metro-Goldwyn-Mayer spared no expense to bring these three great stars together to form "the perfect triangle" in its brilliant filmization of Faith Baldwin's best-seller novel, "Wife vs. Secretary," which opens at the Avalon Theatre on Thursday for a three-day run.

Flawless in story, flawless in performance, masterful in direction, dazzlingly beautiful in setting and smart in dialogue, the new picture is the latest artistic triumph for the producers of such all-star hits as "Moulin" on the "Bounty," "China Seas" and "A Tale of Two Cities." Gable has never been better than in his present role as Van Sanford, millionaire publisher. Jean Harlow is the secretary who indirectly starts but ultimately prevents a serious rift in the publisher's family, and Myrna Loy is lovelier than ever as Gable's misunderstanding wife.

A Good Story

The story, in brief, revolves about the publisher who is devotedly in love with his wife, Linda. Insinuating gossip, however, raises Linda's suspicions regarding her husband's association with his attractive secretary. The drama swings from New York to Havana, where Linda's telephone call discovers her husband's secretary in his room at an unconventional hour.

Her suspicions apparently confirmed, Linda leaves her husband. The subsequent denouement and outcome of the plot makes for a drama which reaches stirring emotional heights.

Building In Eastern States Up 250 Per Cent for August

NEW YORK. — All records since March, 1931, were exceeded by residential building started during August, according to the F. W. Dodge Corporation. August volume not only exceeded July by about 41 per cent, but last month's residential contracts were 2 1/2 times the size of

August, 1935. For the 37 eastern States, and the District of Columbia figures compare:

August, 1936	\$100,522,500
August, 1935	40,528,300
July, 1936	71,993,700

Part of the August gains are attributable to accelerated activities under the PWA housing program, but the bulk of residential work undertaken in August represented private operations.

The total volume of construction awards, covering all types of work, undertaken in the 37 eastern States during August amounted to \$275,284,400; this was in contrast with \$284,734,500 reported for July of this year and represents a gain of about 63 per cent over the figure of \$168,557,200 reported for August, 1935.

PROOF

"Water attracts electricity."
"Have you made tests to prove it?"
"Yes, every time I'm in the bathtub the telephone rings."

WORTH THE PRICE

Skold: "Has your son's college education been of any value?"
Bjorn: "Oh, yes, it cured his mother of bragging about him."

Here and There

Famous officers of the Canadian Pacific Railway and Sir John A. Macdonald, Prime Minister of Canada, arrived at Revelstoke recently and held a series of historic meetings. Among them were Donald A. Smith, George Stephen, James J. Hill, Van Horne and Shaugnessy, names associated for the past half century with the construction of Canada's first transcontinental railway. The party actually comprised a group of film players portraying the historic characters in the famous boardroom sequence of "The Great Barrier," famous British picture depicting the strenuous railway construction days fifty years ago.

Says Gene Baranen, one time world's champion golfer, writing of the Banff Springs Hotel course at the famous resort in the Rockies: "That course of Banff is everything you said. Miss Helen Hicks and I played it against two guests at the hotel and we were beaten. With a huge gallery it may seem funny to hear we simply couldn't keep our minds on the game—the scenery was simply too much."

The first 1937 world cruise to set out from New York will be the Canadian Pacific liner Empress of Britain which will sail January 3 for a voyage of 132 days, covering 30,000 miles and visiting 23 ports in 23 different countries. Among these countries are Palestine, Egypt, India, Ceylon, Malay Archipelago, the Philippines, China, Japan, Hawaii and back to New York via California, the Panama Canal and Havana.

Canada's first complete semi-streamlined air-conditioned train, built for the Canadian Pacific Railway, now in operation with four units in different parts of the Dominion, has been placed on inspection at a number of points across the country and has aroused high praise and enthusiasm on the part of the hundreds of thousands of Canadians who have seen it. In Montreal alone 60,000 spectators went through it in the four days it was on inspection at the Windsor station and the same interest was displayed everywhere else. These units will be in operation between Toronto and Detroit, Montreal and Quebec, and Edmonton and Calgary.

Prime Minister Mackenzie King and other delegates to the League of Nations Conference at Geneva sailed from Quebec in September in the Canadian Pacific flagship Empress of Britain. Accompanying the Premier was Hon. Skolli Dandurand, Government leader in the Senate and Hon. Norman Rogers, Minister of Labor.

Captain George Gould, new skipper of the Empress of Canada, made his first trip as master of the vessel early in September. It is his first command of a Pacific Empress, though he has served the fleet in all official capacities from fourth officer to staff-captain during the past 25 years.

Last of three motor parties visiting Canada this year, 14 British automobilists arrived recently at Quebec on the Empress of Britain. The motorcars, under the organizer Graham Lyons, drove from Quebec to Montreal and will visit Ottawa, Toronto, London, Detroit, Cleveland, Washington and New York.

Manitoba Government To "Carry On"

WINNIPEG.—There is to be no immediate change in the Government of Manitoba. Premier John Bracken, who, at the recent provincial elections, failed to obtain a sufficient number of followers to dominate the Legislature, decided to carry on as head of the government.

Premier Bracken, who heads the Liberal-Progressive group, now has 23 members out of a House of 55. When the House convenes early in the new year, it is expected that the Government will have the support of the Social Credit group of five members, as well as two independent, giving Mr. Bracken a possible 30 votes. It is quite likely that the Labor group also will support the Government on certain issues.

Bracken Wins His Seat

At the recent deferred elections in The Pas, Mr. Bracken, the candidate, won the seat for the fourth consecutive time. Despite the results of the elections in the rest of the province a month earlier, Mr. Bracken won his greatest personal victory, obtaining a majority of al-

News Quiet In Govt. Circles

By T. B. WINDROSS
EDMONTON, Alta.—In the absence of Premier Aberhart from the capital, political or governmental news continues to be very scarce, and yet the week has not been without its mild excitement and the prospect is that things will soon commence to hum in the news circles here.

It is significant that Edmonton is the focal point of special writers from big eastern newspapers and magazines just at the present time. One wonders what is in the minds of editors back East that is awakening this renewal of interest in the situation in Social Credit Alberta.

During the past week in Supreme Court, Justice Tweddle again refused to lift the injunction against the City of Edmonton, entering into agreement with the province to accept Prosperity Certificates in connection with the distribution of relief. The 20 days' grace in which an appeal from the first decision of Mr. Justice Tweddle having passed, it was necessary to get permission from Chief Justice Harvey to appeal the decision. The Chief Justice agreed to allow an appeal to be heard by the Supreme Court providing only the question of the constitutionality of the province issuing the certificates is considered. The city and the province had not decided what course to pursue in the future when this was written.

Next month, beginning August 12, Premier Aberhart and Dr. W. W. Cross, Minister of Health and Relief, will make another speaking tour, visiting among other places, Drumheller, Hanna and Coronation and intervening places.

School Fair Held

(Continued from Page One)

vice that he might be able to give them.

List of Judges
The judges for the different classes were as follows: Poultry and Grain, N. W. Mayson of Olds School of Agriculture; Manual Training, G. R. Holeton, Olds; Cooking and Sewing, Miss N. Rowell, Olds; Vegetables, F. Newcombe, Red Deer, and George Ramsey of the Dominion Experimental Station, Lacombe; School Work, School Inspector Thurber and Alex Penman.

The prize winners in the different classes were as follows (Vegetable class winners not included because of the extraordinary long list):
Special for Saddle Pony—1, Ross Young, Spruceville; 2, Donald Henderson, Central; 3, Roy Pearson, Spring Valley; 4, Gerald Duden, Abordale; 5, Mary Ogilvie, Elkhorn.

Number of entries—10.
Special for Magic Baking Powder Cake—1, Jeanette Ferguson, Canyon; 2, Marion Gie, Sunnyside.
Number of entries—15.
Special for Work Apron—1, Eunice Stout, Spruceville.

Number of entries—2.
Special Booth for Vegetables—1, Spruceville. Entries—8.
Cup Contest for Sports—1, Eureka Valley.

On account of the extended prize list, the balance of the prize winners will be published in the Western Globe next week.

CABINET MINISTERS RETURN FROM EUROPE

Hon. Charles Dunning, minister of finance, LEFT, and Hon. James Gardiner, minister of agriculture, have returned from England where they took part in trade conferences. They are seen on the deck of the Empress of Britain as they landed at Quebec. —Central Press Canadian Photo

Spruceville

SPRUCEVILLE.—The Busy Bees are holding their postponed meeting on Friday night, Oct. 2nd, in the hall. The roll call will be answered with a Current Event.

Mr. and Mrs. Barnes were visitors in the Iowa district Sunday. Mr. Clarence Bladen of Carlisle, Ont., is visiting his sister, Mrs. W. Burton. He reports that Canada has been no frosts around his district. He has many new relations to meet in the district.

Mr. H. E. Heath and family motored to Alie Sunday, visiting Mr. Wolfert and his family, and renewing their acquaintance with Mr. Robeson, formerly of Lacombe.

The next regular meeting of the U.F.W.A. is to be held at the home of Mrs. Barnes on the afternoon of Oct. 7th. Arrangements for the chicken supper (to take place Oct. 9th) have to be made. The roll call will be answered by the name of a book and its author, and a reason for recommending it. Bulletins from the U.F.W.A. directors and book reviews will furnish a full and interesting program.

THAT IS A SEVENTH OF IT
"If somebody left you a million dollars, what would you do?"
"Hire six good lawyers and try to get it."

You don't need a Haircut so often if your hair is properly shaped to begin with. And remember—the foundation of every good permanent is the right Haircut.
—Alberta and Maxine.

Many Visitors Attend Weiner Roast

It was an ideal night for the St. Cyprian's A.Y.P.A. Weiner Roast, held at Jackfish Lake on Wednesday evening, Sept. 30.

The sky cleared off, the stars shone and the moon was so bright as to make it almost as light as day. The Weiner Roast was a great success, many visitors attending as well as members of the club.

Since the organization of this club four weeks ago, the membership has almost tripled itself. It is, however, still short of young men. Will any Anglican young men of the town who feel interested in joining please get in touch with Basil Godfrey at the Royal Bank of Canada.

Next Wednesday the Society is attending a rally of the A.Y.P.A.'s of Central Alberta, to be held at Red Deer. The members are to meet at St. Cyprian's Church by 7:15 p.m. and cars will be there to take them to Red Deer.

All members, or any interested, please come.

HOW TRUE!
Teacher (in geography lesson):
"Now, can anyone tell me where we find mangoes?"
Knowing Little Boy: "Yes, miss; wherever woman goes."

Expen. Station Has A Bird Sanctuary

Duck season is with us again and with it comes the sportmen and their high-powered rifles and shotguns, and painted decoys to lure the anxious feathered creatures within shooting range. But the old wise ones have learned where protection and food is afforded, and in their migratory flights, they guide the inexperienced at the flock to places which have given sanctuary in other years.

One such spot, a small lake, tucked out of sight of the general public, near the centre of the Lacombe Experimental Station, and covering an area of approximately 35 or 40 acres, has become the gathering place of hundreds of ducks, which cover the surface of the water so densely as to almost hide it, and

make it appear to the beholder to be just a moving mass of ducks.

Now a Home for Ducks
Formerly a sort of hunters' paradise, since the farm was proclaimed a bird sanctuary several years ago by F. H. Reed, superintendent, the lake has been used as a breeding place by the ducks, which may be seen there all through the season from early Spring. Two years ago a swan made its home on the lake all summer and geese interrupt their flight to rest on its waters and feed in the nearby fields.

Continuing their interest in wild bird life, the farm staff this Spring obtained pheasants' eggs—some from Calgary and some from the Provincial Department of Agriculture at Oliver—which were hatched out at the farm, and early this Fall the young pheasants were released. With such splendid feeding facilities afforded on all sides the young birds soon accustom themselves to their freedom and learn to look for shelter at the first sign of danger.

Why Suffer From Colds?
